Welcome Entrants, Volunteers, Judges, and Hobbyists!

Welcome back to the 2024 North American National Model Horse Show, returning to the Clarion Conference Center for the first time in nearly two decades. We are delighted to be gathering with you all here for a fast-paced, friendly three days of national competition. Bring out the ponies!

We want to send out a big thank you to all our NAN Team, our volunteers, and judges for offering their time and efforts to make Nationals happen. We also thank all of our class sponsors, silent auction donors and a huge shout out to our special sponsors - Gold Level Sponsor Stone Horses, Silver Level Sponsor Meat Church BBQ, Purple Level Sponsor Marilyn Jensen, and Pink Level Sponsor Curvy Hippo. If you have the chance to thank these awesome donors please do so.

We're thrilled to once again be greeting so many first time Nationals entrants and volunteers. As a hobby driven organization, we are honoured to be part of the ever growing and changing diversification of the model horse hobby we've been lucky enough to participate in during this last decade. We're eagerly looking forward to seeing what so many new hobbyists will create for the future.

You will find in this NAN Program a complete list of entrants by state, a set of class lists with the daily "Go Order", volunteer lists, and judges by division and day. The show hall will open at 6:30 am for exhibitors each day. The show will begin promptly at 7:45 am. Classes will not be held for models or showers who are late. There will be fourteen rings running simultaneously. Expect a fast pace. We will end promptly by or before 2 pm on Wednesday the 10th. Additional show rules will be in your packet; please read them carefully!

We look forward to competitive classes in a friendly and positive environment where we can enjoy each other's company and foster lifelong friendships from across North America and beyond. Please, do not hesitate to reach out to a staff member if you have any questions. We're excited to see you again in Kentucky!

With all our Love to Colette Robertson, our beloved Performance Queen

Colette will soon be crossing over to that next realm. We all hope it will be painless and she will fly free. If you showed in China, AR, or Performance over the past 20 years, chances are you showed with her in the ring. Her love of models was unsurpassed. She was also a Board Certified emergency medicine physician. She graduated from University of Colorado Health Science Center in 1994. She was a US Air Force veteran as well, Rank: Captain. She touched many lives and we will all miss her energy and dedication to the hobby. Please see the notice of the dispersal of her beloved models on Facebook and flyers at the CHIN. We hope you will be able to secure a bit of her vast and wonderful collection and share in her joy at the collecting and showing of Model Horses.

Rest well, our dear friend.

From all of your friends and supporters in Region 5 and Worldwide in the Hobby.

Merit Award Winners

A Note from the Merit Award Coordinator, MaryAnn Snyder

As you can see, the Merit Award program has, once again, been very active these past two years. It's very rewarding to me, both personally and as a representative of NAMHSA, to have so many people participate in the program that rewards models consistently placing first and/or second in the model shows they come out to be seen at. I'm a participant in the Merit Award program myself, and it just thrills me to see my models' names "up in lights" announced in the monthly newsletter and via social media.

Whether you get out to 10 shows a year or one show in 10 years, you can participate in the Merit Award program because the cards never expire: cards from 1997 are still good for Merit Awards! So if you have NAN cards gathering dust at home, check out the Merit Award program at namhsa.org and let's get those models' names "lit up"!

Winners from July 2022- July 2024. The *after the name denotes multiple awards in the category.

WHAT'S THIS PURPLE CARD FOR ANYWAY?

Beginning with NAN 2024, purple cards will be awarded to NAN Champions and Reserve Champions. These models will automatically qualify for a future NAN in the same class in which the card was won. These cards have no expiration date but **can only be used once!** Entry will be charged per model at the current Member or Non-Member entry rate.

For example, a model qualifying in OFP Breyer Quarter Horse Geldings/Mares, it must show in that same class if using their purple card at their next NAN. For performance entries, the purple card allows for entry in **one class only**, the same class in which that model was Champion or Reserve Champion. If the specific class is not offered, entry will be valid for the closest equivalent class, at discretion of NAN Registrar.

| **STONEHORSEREF**

The Stone Reference Site is a versatile database of over 27,000 Stone Model Horses with over 100,000 photos, and has been in existence since 2001. Search by mold, color, artist, and much more!
www.stonehorseref.com

In addition to a powerful search engine, both sites have features to allow you to build your own In Search Of List, Private Collection List, or Showing List using the data from the websites. Create these lists and export them as a pdf (with a photo) or as a CSV file you can import to a spreadsheet:

- * **In Search Of:** Build a Tailored list of Models You are in Search Of!
- * **Private Collection:** Create lists for Insurance, Family or Friends. This Includes notes that You can Maintain Yourself!
- * **Showing:** Create Your Own Personal Show String List with the Ability to Add Tailored Information Such as Horse Name, Breed, and Gender.

BREYERHORSEREF

The Breyer Horse Reference Site was released in January 2022. With over 7000 records, you can search on molds, colors, series, and much more!

PROJECT CHEAPIE STRING

by Kelly Marlett

Over the last few years the model horse hobby has all but exploded with new hobbyists collecting, customizing, and meeting others who share their interests. It's become common to have at least a few first time showmen at every event, along with new collectors who have just stopped by the show hall to get a better idea of the process for showing.

In the spring of 2023 I met a potential shower that was completely overwhelmed with the whole process. They had a small collection of 30 or so pieces, but had no idea of how to move forward with showing. Were their horses good enough? Did they need to buy specific pieces? Were the models and molds that they had competitive? How much would they need to spend to get started showing? Can you create a successful model horse show string on a tight budget? This is when the idea of Project Cheapie String was born - "Could a newbie shower with an inexpensive budget show string still be competitive in the show ring?"

I decided that Stablemates would be easier to use for the project than Traditionals, as Stablemates tend to be more budget friendly, are easier to find and with so many shows having Mini divisions finding local events would be fairly easy. I started the project with a budget of \$500 and planned on finding at least 100 Stablemates for the project between April 2022 and September 2023 which was the first planned show for the project string. The project string was formed with the following rules:

1. Base price for each Stablemate was \$5.
2. If a model cost less than \$5, I was allowed to 'bank' the extra. For example if a horse cost me \$3 then I was allowed to 'bank' the extra \$2 to apply to the next horse or a future horse.
3. I was allowed to 'bank' up to \$20. I was not allowed to spend over \$20 on any model.
4. I was allowed to accept donations for the string, as long as every horse donated had a base cost under my maximum allowed of \$5 or \$20. Stablemate Club horses, for example, were allowed to be donated as their issue cost was \$15 (plus the deposit which equaled \$20.) The one Vintage Club Stablemate in the Project Cheapie String (PCS) was also a donation and technically the piece is free with club membership, so it was also allowed.
5. The horses in PCS would be shown a minimum of four times between September 2023 and April 2024. Any horses that earned NAN cards would also be taken to NAN the week of BreyerFest 2024.

I posted on Facebook about the project and what I needed for it and was bombarded with sales lists and sellers who were more than flexible with prices. A hobbyist found almost 40 pieces well within my budget for me.

Several friends sent donations. Where I was missing things I was able to shop at BreyerFest and came home with an almost complete show string as sellers at the Clarion were more than willing to work within my budget.

By September of 2023 I had spent \$479 on 147 models specifically for PCS. Even though most of the shows I would be attending were double card judged (meaning they were awarding both breed and collectibility NAN cards) I decided early on that I would be concentrating strictly on Breed cards. If something wins a collectibility card that's great, but in most cases the collectibility winners were harder to find, rarer, older pieces that were way out of my budget. A nicely shaded model with a good breed assignment can go far regardless of what someone pays for it.

PCS was shown at four shows: Happy Kamper Classic in Huntingburg, IN, Hollow Horse in Cumming, GA, Home For The Holidays in Randolph, AL, and River City Classic in Evansville, IN. While the core string stayed the same, I did swap out horses that didn't place well for

others depending on how the class list was arranged at each event. All horses had collectibility documentation and all horses with uncommon breed assignments had documentation.

I did not keep track of placings, just NAN cards, as the goal was to see how many horses I could end up taking to NAN. By April 2024 PCS had earned 62 cards between the four shows. Several earned cards at more than one show and one horse qualified at every one of the four shows. Cards were earned at Mini only shows, shows with less than 25 entrants, and at shows with 50+ entrants. PCS has 46 entries at NAN this year, with 26 in breed and 20 in collectibility.

Can a show string that cost an average of \$3.25 per horse win at NAN? We'll find out July 8th - 10th in Lexington, KY.

Several people have reached out to me because of PCS to offer their encouragement, to tell me that they love following the project posts and the progress of the show string, and that the

project has given them the courage to take the leap into live showing. Whether their collection is 30 models or 3,000 they're excited to register, to pick out their show strings, to meet other hobbyists at shows, and to put whatever they choose to show proudly onto the table. For me that made the entire project worth it.

For 2024-2025 we've decided that after NAN is over, Project Cheapie String - Traditional/Classic Scale version is off and running starting BreyerFest weekend. I've already started shopping for that project with an adjusted budget; \$40 base cost, \$80 max bankable amount, except for BreyerFest Surprise model, which I'm allowed to spend \$85 on because that's their cost. The show string will be made up of mostly Regular Run models, some BreyerFest Special Runs, and lots of pieces I got on clearance at Tractor Supply Company.

The Elvis the PONY series

We are now up to Eight (8) books in the *Elvis the Pony* series! Find us on Facebook!

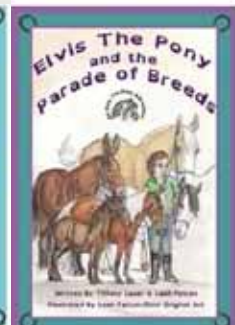

Meet *Elvis*, the silver-bay (yes, he's a real pony) lesson pony! In his first book, *Elvis and Tivio*, the ponies had an adventure learning about horse coat-colors. In the second book, *Elvis* learns his ABCs, featuring his friends both long and short eared! Donkeys and mules are featured right alongside his pony and horse friends! In the third book of the *Elvis the Pony* Series *Elvis* meets a long eared mule at the local Show! Read about *Elvis* and how he discovers he can make friends even if they do not look like he does!

We have a Holiday Themed book, *Parade of Breeds* covering many equines of all types— and a more all-age inclusive *Coloring Book!* Editions available now or soon in **SPANISH/bilingual** as well! Also available on Amazon and Barnes & Noble, but you can order direct from the authors (and get signed copies)!

Co-Authored and illustrated by Leah Patton of Shlei Original Art (Region 5 NAMHSA).
Note also we have used a dyslexic friendly font and bright colors in the books!

A Lifetime of Friendships

by Lynn Weber
Region 5 Shower

Depending on when you got into the hobby, you may have found your friends through the classified ads in Model Horse Shower's Journal, Just About Horses, The Hobby Horse News, or any of the various publications we had before the Internet became widely available. If you found the hobby in the 1990s, you may have joined Haynet forum when it was on the Majordomo servers, or the discussion boards on Prodigy or AOL. Joined in the 2000s? Haynet moved to YahooGroups (RIP), regional NAMHSA groups developed, Model Horse Blab started up in 2004, then Facebook began and hundreds of model horse related groups popped up. It has just been increasing since then. Since 2010, other platforms such as Instagram and TikTok have provided many more opportunities for connecting with like-minded people. Even if you haven't met these friends in person there are plenty of ways to link up, distance becomes less relevant. Sometimes it's just not possible to meet up, but that doesn't make these relationships any less real.

Some of us are lucky enough to meet our hobby besties in person. Do you remember the feeling you had the first time you walked into a model horse show? Your first BreyerFest, or NAN? You may have known a few people, or online friends that you hadn't met in person yet, but most likely the room was filled with strangers, who, like you, had a deep fascination with either model horses, real horses, or both. Throughout the day you probably found yourself checking out each other's models, chatting between classes, or deciding to carpool to lunch.

Whether online or in person, it started out as simply talking about your collections, the next thing you know you are tagging each other in posts where there's a model your friend wants. You enter for special runs when

your friend has to have it and you don't. You put each other down as "plus ones" for event drawings. You now have a new roommate at shows, someone to caravan with or share the ride to shows and BreyerFest. You're there for each other during vehicle breakdowns on Western Kentucky Parkway, sunburn and heat exhaustion at the Kentucky Horse Park, and when our friends simply don't get the special run (or its variation) that they really wanted.

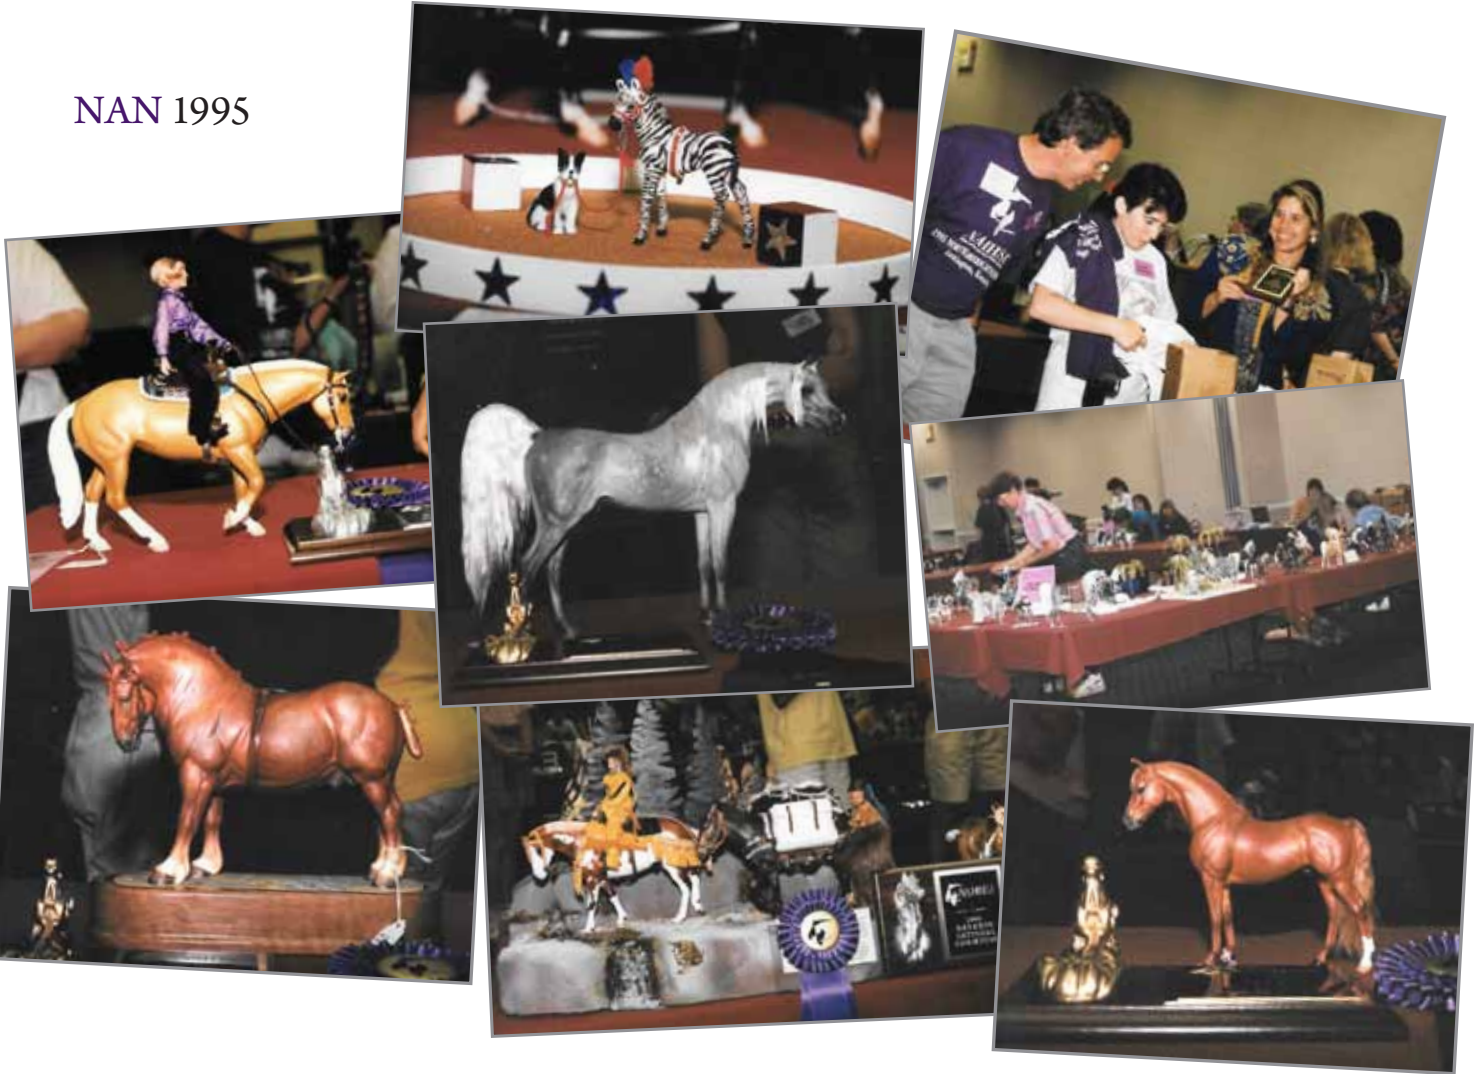

These friendships start out as this, coming together for hobby related favorites, and transition into being "real life". Weddings, break-ups, graduations, births and birthdays, and even sadly in death, we are there for each other. Currently, my region is dealing with two beloved members who are coming to the close of their lives. Several of us have been packing up their massive collections, and preparing their collections for sale at BreyerFest so that the proceeds can pay for end-of-life care and medical bills. It's been a roller coaster of emotions, seeing their awesome collectibles, but knowing why we have come together. So, when I say that I have found friends for life, this is what I mean. It's heartbreaking, but the years of friendship in between have made it all worth it. May you all find life-long friendships full of love.

No-Stress Breed Documentation

by Sarah Pavolko

Documentation, is there any other single word in the hobby that can strike such fear into the hearts of newbies, and stress into the minds of veterans? The basic purpose of breed documentation is to prove the validity of your breed choice for your model. This is particularly important for rarer breeds, as even the most experienced judge doesn't necessarily know everything about every single breed of horse.

You don't want to overwhelm the judge. You don't need a whole school book report, but more of the Cliff's Notes version. You want to make it easy and quick for the judge to find and absorb the information they need to aid in their judging.

While many shows allow up to an 8.5" x 11" sheet of paper, I believe it's too much for breed documentation. A full sheet can also take up too much space on a show table, and the judge often has less than a minute to look at each model in a class, taking up valuable time. Sticking to 4" x 6" or 5" x 7" in most cases makes it easier to find protective sleeves in that size. It is also a good idea to use one or maybe two large photos, bullet points, short sentences, and decent sized, easy to read fonts.

The information you provide on your documentation should be something about the horse breed that is visible. Stating that a breed is extremely loyal or hotheaded doesn't help as those aren't things that the judge can see.

Stating where the breed originated helps show that it's in the correct class and section, but you don't need to focus too much on breed history. Stating the purpose for which they were bred can sometimes help, i.e. if a horse was bred for farm work that will have affected their build and conformation. Keep things informative but short and to the point. Citing your sources is important. It shows that you have done your due diligence and know how to evaluate a source to make sure that the information that you're assembling is accurate.

When searching for photos, ideally, look for breeder websites or other official sources. Avoid Pinterest and AI as they contain uncredited and/or stolen imagery. You can use "-Pinterest" and "before:2022" and "-ai" and "-midjourney" (or other AI software name) to eliminate those results from a Google search.

Not all breeds need documentation! For example, Quarter Horse, Mustang, Thoroughbred, Arabian, Morgan, Saddlebred, Clydesdale, Shire, and other common breed entries can just be placed in the show ring. While a judge won't disqualify your model for unneeded documentation, they also don't have time to stop and read it. The exception for these is if the horse is an odd color not expected of the breed, and in that case, you can make a simpler card explaining the color and how it's permitted by the registry.

For a concrete documentation example, here is how I would document a Proud Arabian Mare as an Arabian. While an Arabian doesn't typically need documentation, I'm using this as an example since I own an Arabian and therefore own the rights to her photos.

In Microsoft Word, I created a table that has 4" by 6" spaces. I created a Word Art header that has the breed name in a clear font and made it large and easy to read. Then I insert the

photo. In order to make it easier to move the photo around, make sure you right click on the image and change the image layout to 'In Front of Text'.

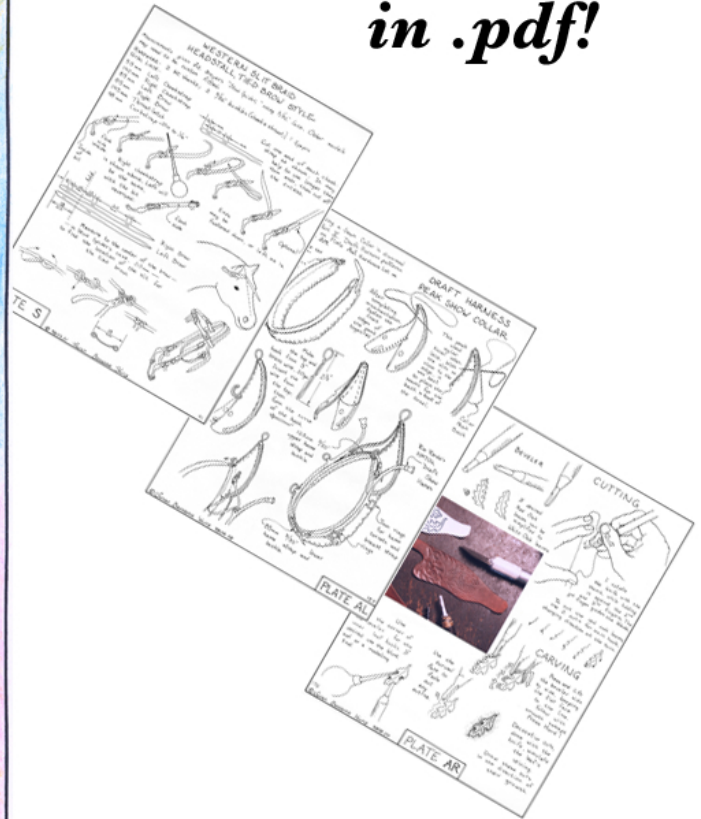

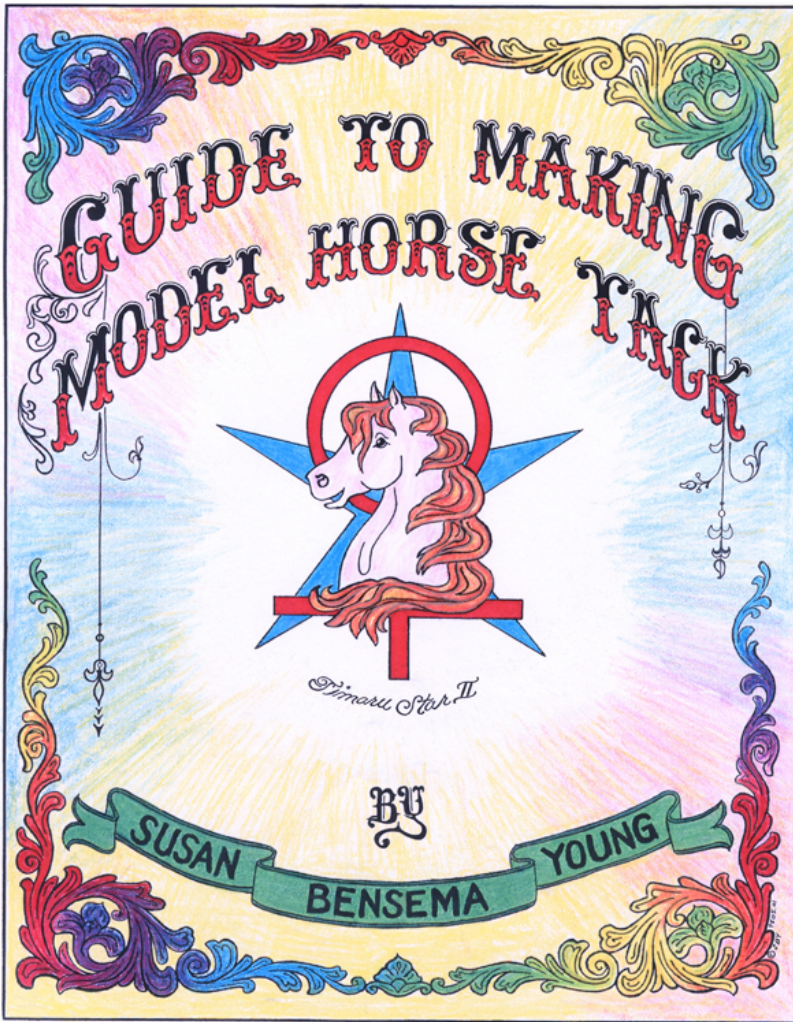

Off to one side, I add a text box with bullet points. I choose some of the most obvious and specific aspects of the breed and add them to the description. Once those aspects are in place, I make another text box or two with smaller text in italics for the citations.

And that's it, we documented an Arabian! You can use this same basic process for any breed that you need. If you don't have a printer at home, you can use a public library or a printing service such as Staples, OfficeMax, or FedEx. If possible, I suggest printing on card stock for a sturdier card. Some people laminate their cards for longevity, but lamination does eventually break down and if you realize you made a typo or want to change something, you're stuck. I personally prefer these plastic 4" x 6" protector sleeves that you can get on Amazon as you can change and swap your documentation as much as you want.

Everyone does their documentation a little differently, so experiment with it and find out what works best for you. Happy documenting!
